B. Use of Funding

1. Should the awardee anticipate the discontinuation of the research project, transfer from the designated institution, or a change in mentorship, Pfizer must be notified without delay.

2. The awardee’s institution must apply for a patent on any invention resulting from work directly related to the awardee’s Research Proposal and conducted within the scope of the Pfizer Fellowship. Any disclosure of an invention made prior to the filing of a patent application must be made in writing within 30 days of disclosure to Pfizer.

3. Should the awardee decide to accept funds from another pharmaceutical company or its foundation, Pfizer must be notified without delay.

4. If the institution or the awardee wishes to terminate the award before its completion, an agreement between the institution/awardee and Pfizer will be completed, which shall not be unreasonably withheld.

5. If the institution or the awardee wishes to transfer from the designated institution, which shall not be unreasonably withheld.

6. Should the awardee’s institution fail to meet any of the obligations as stated in this Agreement, the Pfizer Fellowship application must be returned to Pfizer.

7. Before publication or other disclosure, the awardee, sponsor/mentor, and institution hosting the awardee shall inform Pfizer of any such invention and subject to any prior obligations (which shall have been previously disclosed in writing to Pfizer).

8. fences must be submitted annually to Pfizer within 3 months after the expiration of each Pfizer award year. This Pfizer award must carry the following acknowledgment: “This research was conducted while (name of awardee) was a Pfizer Fellow (Fellow’s name).”

9. Awardees must submit a report of research and progress, consistent with the requirements outlined in this Agreement and prior to submitting any manuscripts for publication. Awardees must inform Pfizer of any changes in publication plans or of any subsequent publication of research results. Awardees must keep the Pfizer program notified of any such changes, including title, abstract, and funding information.

10. The awardee must agree to the conditions stated in this Agreement. If the awardee or institution fail to meet any of the conditions as stated herein, the Pfizer Fellowship application must be returned to Pfizer.

11. Awardees must submit a report of research and progress, consistent with the requirements outlined in this Agreement and prior to submitting any manuscripts for publication. Awardees must inform Pfizer of any changes in publication plans or of any subsequent publication of research results. Awardees must keep the Pfizer program notified of any such changes, including title, abstract, and funding information.

12. The awardee must agree to the conditions stated in this Agreement. If the awardee or institution fail to meet any of the conditions as stated herein, the Pfizer Fellowship application must be returned to Pfizer.

13. Awardees must submit a report of research and progress, consistent with the requirements outlined in this Agreement and prior to submitting any manuscripts for publication. Awardees must inform Pfizer of any changes in publication plans or of any subsequent publication of research results. Awardees must keep the Pfizer program notified of any such changes, including title, abstract, and funding information.

14. The awardee must agree to the conditions stated in this Agreement. If the awardee or institution fail to meet any of the conditions as stated herein, the Pfizer Fellowship application must be returned to Pfizer.

15. Awardees must submit a report of research and progress, consistent with the requirements outlined in this Agreement and prior to submitting any manuscripts for publication. Awardees must inform Pfizer of any changes in publication plans or of any subsequent publication of research results. Awardees must keep the Pfizer program notified of any such changes, including title, abstract, and funding information.

16. The awardee must agree to the conditions stated in this Agreement. If the awardee or institution fail to meet any of the conditions as stated herein, the Pfizer Fellowship application must be returned to Pfizer.

17. Awardees must submit a report of research and progress, consistent with the requirements outlined in this Agreement and prior to submitting any manuscripts for publication. Awardees must inform Pfizer of any changes in publication plans or of any subsequent publication of research results. Awardees must keep the Pfizer program notified of any such changes, including title, abstract, and funding information.

18. The awardee must agree to the conditions stated in this Agreement. If the awardee or institution fail to meet any of the conditions as stated herein, the Pfizer Fellowship application must be returned to Pfizer.

19. Awardees must submit a report of research and progress, consistent with the requirements outlined in this Agreement and prior to submitting any manuscripts for publication. Awardees must inform Pfizer of any changes in publication plans or of any subsequent publication of research results. Awardees must keep the Pfizer program notified of any such changes, including title, abstract, and funding information.

20. The awardee must agree to the conditions stated in this Agreement. If the awardee or institution fail to meet any of the conditions as stated herein, the Pfizer Fellowship application must be returned to Pfizer.

21. Awardees must submit a report of research and progress, consistent with the requirements outlined in this Agreement and prior to submitting any manuscripts for publication. Awardees must inform Pfizer of any changes in publication plans or of any subsequent publication of research results. Awardees must keep the Pfizer program notified of any such changes, including title, abstract, and funding information.

22. The awardee must agree to the conditions stated in this Agreement. If the awardee or institution fail to meet any of the conditions as stated herein, the Pfizer Fellowship application must be returned to Pfizer.

23. Awardees must submit a report of research and progress, consistent with the requirements outlined in this Agreement and prior to submitting any manuscripts for publication. Awardees must inform Pfizer of any changes in publication plans or of any subsequent publication of research results. Awardees must keep the Pfizer program notified of any such changes, including title, abstract, and funding information.

24. The awardee must agree to the conditions stated in this Agreement. If the awardee or institution fail to meet any of the conditions as stated herein, the Pfizer Fellowship application must be returned to Pfizer.

25. Awardees must submit a report of research and progress, consistent with the requirements outlined in this Agreement and prior to submitting any manuscripts for publication. Awardees must inform Pfizer of any changes in publication plans or of any subsequent publication of research results. Awardees must keep the Pfizer program notified of any such changes, including title, abstract, and funding information.

26. The awardee must agree to the conditions stated in this Agreement. If the awardee or institution fail to meet any of the conditions as stated herein, the Pfizer Fellowship application must be returned to Pfizer.

27. Awardees must submit a report of research and progress, consistent with the requirements outlined in this Agreement and prior to submitting any manuscripts for publication. Awardees must inform Pfizer of any changes in publication plans or of any subsequent publication of research results. Awardees must keep the Pfizer program notified of any such changes, including title, abstract, and funding information.

28. The awardee must agree to the conditions stated in this Agreement. If the awardee or institution fail to meet any of the conditions as stated herein, the Pfizer Fellowship application must be returned to Pfizer.

29. Awardees must submit a report of research and progress, consistent with the requirements outlined in this Agreement and prior to submitting any manuscripts for publication. Awardees must inform Pfizer of any changes in publication plans or of any subsequent publication of research results. Awardees must keep the Pfizer program notified of any such changes, including title, abstract, and funding information.

30. The awardee must agree to the conditions stated in this Agreement. If the awardee or institution fail to meet any of the conditions as stated herein, the Pfizer Fellowship application must be returned to Pfizer.

31. Awardees must submit a report of research and progress, consistent with the requirements outlined in this Agreement and prior to submitting any manuscripts for publication. Awardees must inform Pfizer of any changes in publication plans or of any subsequent publication of research results. Awardees must keep the Pfizer program notified of any such changes, including title, abstract, and funding information.

32. The awardee must agree to the conditions stated in this Agreement. If the awardee or institution fail to meet any of the conditions as stated herein, the Pfizer Fellowship application must be returned to Pfizer.

33. Awardees must submit a report of research and progress, consistent with the requirements outlined in this Agreement and prior to submitting any manuscripts for publication. Awardees must inform Pfizer of any changes in publication plans or of any subsequent publication of research results. Awardees must keep the Pfizer program notified of any such changes, including title, abstract, and funding information.

34. The awardee must agree to the conditions stated in this Agreement. If the awardee or institution fail to meet any of the conditions as stated herein, the Pfizer Fellowship application must be returned to Pfizer.

35. Awardees must submit a report of research and progress, consistent with the requirements outlined in this Agreement and prior to submitting any manuscripts for publication. Awardees must inform Pfizer of any changes in publication plans or of any subsequent publication of research results. Awardees must keep the Pfizer program notified of any such changes, including title, abstract, and funding information.

CONDITIONS OF THE GRANT

A. Financial Administration

1. Grants are for the purpose of supporting the investigator in the conduct of the research. Applicant should provide the University with a statement of intended personnel and budget. The University will not accept a grant without a budget statement. The grant will be awarded subject to the University’s approval of the budget.

2. This award may not be transferred to another faculty member.

3. Should the awardee anticipate the discontinuation of the research project, transfer from the designated institution, or a change in the institution’s financial support, the awardee must provide written notice to Pfizer within 30 days of the event.

4. If the institution or the awardee wishes to terminate the award before its expiration, the awardee must provide written notice to Pfizer within 30 days of the event.

B. Use of Funding

1. All expenditures must be incurred by the awardee.

2. All expenditures must be incurred by the awardee.

3. All expenditures must be incurred by the awardee.

4. All expenditures must be incurred by the awardee.

C. Intellectual Property

1. Pfizer has the right to enter into exclusive licensing agreements for inventions, whether patented or not, and under any patent applications or any inventions resulting from the awardee’s Research Proposal.

2. The awardee is required to transfer to Pfizer all rights to inventions resulting from the awardee’s Research Proposal.

3. The awardee must provide written notice of any invention resulting from work directly related to the awardee’s Research Proposal and conducted at the awardee’s institution.

4. Before publication or other disclosure, the awardee, sponsor/mentor, and institution hosting the awardee shall inform Pfizer of any inventions.

D. Annual Progress Reports

1. The awardee shall submit an annual progress report to Pfizer by January 1 of each year. The progress report shall include a detailed description of the work performed during the previous year.

2. The progress report shall include a detailed description of the work performed during the previous year.

3. The progress report shall include a detailed description of the work performed during the previous year.

4. The progress report shall include a detailed description of the work performed during the previous year.

E. Patents and Licensing

1. Pfizer has the right to enter into exclusive licensing agreements for inventions, whether patented or not, and under any patent applications.

2. The awardee is required to transfer to Pfizer all rights to inventions resulting from the awardee’s Research Proposal.

3. The awardee must provide written notice of any invention resulting from work directly related to the awardee’s Research Proposal and conducted at the awardee’s institution.

4. Before publication or other disclosure, the awardee, sponsor/mentor, and institution hosting the awardee shall inform Pfizer of any inventions.

F. Publication Rights

1. The awardee shall submit an annual progress report to Pfizer by January 1 of each year. The progress report shall include a detailed description of the work performed during the previous year.

2. The progress report shall include a detailed description of the work performed during the previous year.

3. The progress report shall include a detailed description of the work performed during the previous year.

4. The progress report shall include a detailed description of the work performed during the previous year.

G. Use of University Funds

1. The awardee shall submit an annual progress report to Pfizer by January 1 of each year. The progress report shall include a detailed description of the work performed during the previous year.

2. The progress report shall include a detailed description of the work performed during the previous year.

3. The progress report shall include a detailed description of the work performed during the previous year.

4. The progress report shall include a detailed description of the work performed during the previous year.

H. Conflict of Interest

1. The awardee shall submit an annual progress report to Pfizer by January 1 of each year. The progress report shall include a detailed description of the work performed during the previous year.

2. The progress report shall include a detailed description of the work performed during the previous year.

3. The progress report shall include a detailed description of the work performed during the previous year.

4. The progress report shall include a detailed description of the work performed during the previous year.

I. Grant Non-Compliance

1. The awardee shall submit an annual progress report to Pfizer by January 1 of each year. The progress report shall include a detailed description of the work performed during the previous year.

2. The progress report shall include a detailed description of the work performed during the previous year.

3. The progress report shall include a detailed description of the work performed during the previous year.

4. The progress report shall include a detailed description of the work performed during the previous year.

J. Termination

1. The awardee shall submit an annual progress report to Pfizer by January 1 of each year. The progress report shall include a detailed description of the work performed during the previous year.

2. The progress report shall include a detailed description of the work performed during the previous year.

3. The progress report shall include a detailed description of the work performed during the previous year.

4. The progress report shall include a detailed description of the work performed during the previous year.

K. Copyright

1. The awardee shall submit an annual progress report to Pfizer by January 1 of each year. The progress report shall include a detailed description of the work performed during the previous year.

2. The progress report shall include a detailed description of the work performed during the previous year.

3. The progress report shall include a detailed description of the work performed during the previous year.

4. The progress report shall include a detailed description of the work performed during the previous year.

L. Acknowledgment

1. The awardee shall submit an annual progress report to Pfizer by January 1 of each year. The progress report shall include a detailed description of the work performed during the previous year.

2. The progress report shall include a detailed description of the work performed during the previous year.

3. The progress report shall include a detailed description of the work performed during the previous year.

4. The progress report shall include a detailed description of the work performed during the previous year.

M. Application Forms

1. The awardee shall submit an annual progress report to Pfizer by January 1 of each year. The progress report shall include a detailed description of the work performed during the previous year.

2. The progress report shall include a detailed description of the work performed during the previous year.

3. The progress report shall include a detailed description of the work performed during the previous year.

4. The progress report shall include a detailed description of the work performed during the previous year.

N. Call for Applications

1. The awardee shall submit an annual progress report to Pfizer by January 1 of each year. The progress report shall include a detailed description of the work performed during the previous year.

2. The progress report shall include a detailed description of the work performed during the previous year.

3. The progress report shall include a detailed description of the work performed during the previous year.

4. The progress report shall include a detailed description of the work performed during the previous year.

CALL FOR APPLICATIONS

THE PFIZER POSTDOCTORAL FELLOWSHIP GRANTS IN PAIN MEDICINE 2003

The Pfizer Postdoctoral Fellowship Grants in Pain Medicine are designed to support promising postdoctoral fellows for 2 years.

APPLICATION FORMS

Online at:

The Pfizer Postdoctoral Fellowship Grants in Pain Medicine are designed to support promising postdoctoral fellows for 2 years.

1. The awardee must provide documentation of the research project, transfer-in the designated institution, or a collaborative project, or both, more than 90 days after the Fellowship start date.

2. This award may not be transferred to any other institution.

3. The awardee must receive direct funds from the pharmaceutical company or its foundation. Pfizer must receive written notice of any change in mentorship, Pfizer must be notified without delay.

4. The inclusion of the awardee's advisor in the study will not be considered a completion, an agreement between the institution (awardee and Pfizer) facilitating. Transfer-in of research (including the protocol) by the awardee is not required to transfer-in to Pfizer and will not in any way diminish the balance of the awardee's fellowship.
CONDITIONS OF THE GRANT

A. Financial Administration

1. Grants for the Pfizer Postdoctoral Fellowships in Pain Medicine are awarded to the sponsoring institution on behalf of the awardee. The amount of funds available for the purpose of this grant is $65,000 per year for two years or until funding is terminated as described in Section G. Stipulations. The institution is responsible for making the funds available to the awardee in accordance with its prevailing procedures and policies, and the procedures and policies established by Pfizer.

2. Use of Funding

This award must be dedicated to the awardee’s primary salary support, and expenditure for research and travel-related expenses of the awardee and associated personnel. Any expenditure for equipment or supplies should be related only to the awardee’s primary salary support. Expenditure for travel is defined as any expenditure for the travel portion of a conference. The awardee may not use any portion of the fellowship funding for equipment or supplies that are not associated with a specific research project (subject to the stipulations described below). The awardee is responsible for documenting all expenditures in terms of actual costs, and for ensuring that all expenditures are supported by adequate documentation and reconciled with all applicable financial requirements of the institution and of the grantee organization, as well as all federal, state, and institutional guidelines and/or policies. The awardee may use his or her fellowship funding to support the research project in which he or she is engaged, including travel costs, must be allocated to the research project and the fellowship award. All allowable costs must be used to support the primary salary support of the awardee and to support the Research Project.

B. Use of Funding

1. Should the awardee anticipate the discontinuation of the research project, transfer from the designated institution, or a move to a different location, he or she must give the institution thirty (30) days written notice of his or her intent to terminate the fellowship award. The awardee may be terminated by the institution or Pfizer Inc. at any time, subject to Pfizer’s right of audit and review of the awardee’s research and activities, if the institution or Pfizer determines that the awardee has violated or is violating any of the provisions of this grant. Termination will be made with the understanding that all funds will be returned to Pfizer. If without cause the awardee terminates the fellowship prior to completion of the fellowship award period, the awardee will be required to return to Pfizer the difference between the actual amount of fellowship payment received and the amount of fellowship payment owed by Pfizer.

2. The awardee must devote his or her full-time effort to the research project. If the institution or the awardee wishes to terminate the award before its scheduled completion, the awardee must provide thirty (30) days’ written notice to Pfizer. Termination will be made with the understanding that all funds will be returned to Pfizer.

3. Grants and awards made by Pfizer must be used within the time period specified for their award. Each grant is $65,000 per year for 2 years. Each year grant payments will be made on or about July 1 and January 1. The institution is responsible for administering the funds in accordance with its prevailing procedures and policies, and the procedures and policies established by Pfizer.

C. Annual Financial Reports

A. The project report required under this grant will be submitted quarterly to Pfizer Inc. by the awardee. The report must include all income and expenditure statements as required by this grant. In the event of any change in the principal investigator, an updated copy of the updated grant agreement should be submitted to Pfizer Inc. No change in the principal investigator can be made without the consent of Pfizer Inc. The awardee is responsible for informing Pfizer Inc. of any changes in the principal investigator. The awardee must also continue to submit all required reports and statements to Pfizer Inc. for the duration of the grant.

D. Annual Progress Reports

At least 1 progress report and a final report discussing the awardee’s research must be submitted to Pfizer during the period of the award. The report should include a description of the awardee’s research activities, the results of the research activities, and a summary of the awardee’s activities during the period of the grant.

E. Publications

All publications to be submitted are in the form of a commentator’s or reviewer’s report that results from a project supported by this grant. The awardee must carry the following acknowledgment: “This research was conducted while (name of awardee) was a Pfizer Visiting Professor.” This acknowledgment must be placed on all publications. The awardee must also carry the following acknowledgment: “Funded by Pfizer Inc. in support of the Pfizer Postdoctoral Fellowships in Pain Medicine.” This acknowledgment must be placed on all publications. The awardee must also carry the following acknowledgment: “Funded by Pfizer Inc. in support of the Pfizer Postdoctoral Fellowships in Pain Medicine.” This acknowledgment must be placed on all publications.

F. Patents and Licensing

In the event of any change in the principal investigator, an updated copy of the updated grant agreement should be submitted to Pfizer Inc. No change in the principal investigator can be made without the consent of Pfizer Inc. The awardee is responsible for informing Pfizer Inc. of any changes in the principal investigator. The awardee must also continue to submit all required reports and statements to Pfizer Inc. for the duration of the grant.

G. Stipulations

1. The awardee must devote his or her full-time effort to the research project. If the institution or the awardee wishes to terminate the award before its scheduled completion, the awardee must provide thirty (30) days’ written notice to Pfizer. Termination will be made with the understanding that all funds will be returned to Pfizer.

2. Grants and awards made by Pfizer must be used within the time period specified for their award. Each grant is $65,000 per year for 2 years. Each year grant payments will be made on or about July 1 and January 1. The institution is responsible for administering the funds in accordance with its prevailing procedures and policies, and the procedures and policies established by Pfizer.

3. Grants and awards made by Pfizer must be used within the time period specified for their award. Each grant is $65,000 per year for 2 years. Each year grant payments will be made on or about July 1 and January 1. The institution is responsible for administering the funds in accordance with its prevailing procedures and policies, and the procedures and policies established by Pfizer.

4. If the institution or the awardee wishes to terminate the award before its scheduled completion, the awardee must provide thirty (30) days’ written notice to Pfizer. Termination will be made with the understanding that all funds will be returned to Pfizer.

5. The awardee must devote his or her full-time effort to the research project. If the institution or the awardee wishes to terminate the award before its scheduled completion, the awardee must provide thirty (30) days’ written notice to Pfizer. Termination will be made with the understanding that all funds will be returned to Pfizer.

6. If the institution or the awardee wishes to terminate the award before its scheduled completion, the awardee must provide thirty (30) days’ written notice to Pfizer. Termination will be made with the understanding that all funds will be returned to Pfizer.
The Pfizer Postdoctoral Fellowship Grants in Pain Medicine 2003

Pfizer is pleased to announce the second annual competition in the Pfizer Postdoctoral Fellowship Grants in Pain Medicine. This initiative represents one of the numerous grants and awards programs which Pfizer makes available to support the advancement of research and innovation in academia.

The primary purpose of the Pfizer Postdoctoral Fellowship Grants in Pain Medicine is to provide training opportunities for physician-scientists who wish to pursue clinical or basic biomedical research in an academic setting. Applications will be evaluated by a Grant Review Committee that is composed of independent academicians in the field of pain medicine. This grant will not fund research involving animal models of disease, not proposals involving any medications such as drug trials.

Grants are limited to $65,000 per year for 2 years. Funding is primarily intended for salary support. Only 1 applicant will be accepted per medical school in pain medicine. Up to 2 individuals will be selected each year to receive a Pfizer Postdoctoral Fellowship Grant in Pain Medicine.

Who May Apply

The Pfizer Postdoctoral Fellowships provide financial support for the training of physician-scientists in preparation for full-time faculty status. Individuals already having a full-time, tenured-track appointment, or anticipating such an appointment or its equivalent during the first year of the fellowship, are not eligible to apply. Applicants must demonstrate a strong interest in academic pain medicine and be sponsored by a U.S. academic medical institution by a full-time faculty member. The candidate’s potential for future outstanding contributions to the field, as evidenced by such factors as his or her research training, and publications, will be closely evaluated.

Eligibility

Applicants must:

- Submit their completed applications by the application deadline.
- Be full-time U.S. citizens, U.S. Green card holders, or nonimmigrants who are legal permanent residents of the United States.
- Be recognized as independent investigators and must be recognized as independent investigators in their institution’s proposed area of research.
- Be recognized as independent investigators or will be assigned primary investigator status by their sponsoring institution, and have arranged for an appointment at an accredited U.S. academic medical institution (allopathic or osteopathic) who is a full-time faculty member of the institution.
- Have arranged for an appointment at an accredited U.S. academic medical institution (allopathic or osteopathic) who is a full-time faculty member of the institution.
- Hold an MD, DO, DDS, or other appropriate degree from an accredited U.S. academic medical institution and have been accepted by a sponsor institution.
- Be recognized as independent investigators or will be assigned primary investigator status by their sponsoring institution, and have arranged for an appointment at an accredited U.S. academic medical institution (allopathic or osteopathic) who is a full-time faculty member of the institution.

Eligibility

Applicants must:

- Be recognized as independent investigators or will be assigned primary investigator status by their sponsoring institution, and have arranged for an appointment at an accredited U.S. academic medical institution (allopathic or osteopathic) who is a full-time faculty member of the institution.
- Hold an MD, DO, DDS, or other appropriate degree from an accredited U.S. academic medical institution and have been accepted by a sponsor institution.
- Be recognized as independent investigators or will be assigned primary investigator status by their sponsoring institution, and have arranged for an appointment at an accredited U.S. academic medical institution (allopathic or osteopathic) who is a full-time faculty member of the institution.
- Hold an MD, DO, DDS, or other appropriate degree from an accredited U.S. academic medical institution and have been accepted by a sponsor institution.

Eligibility

Applicants must:

- Be recognized as independent investigators or will be assigned primary investigator status by their sponsoring institution, and have arranged for an appointment at an accredited U.S. academic medical institution (allopathic or osteopathic) who is a full-time faculty member of the institution.
- Hold an MD, DO, DDS, or other appropriate degree from an accredited U.S. academic medical institution and have been accepted by a sponsor institution.
- Be recognized as independent investigators or will be assigned primary investigator status by their sponsoring institution, and have arranged for an appointment at an accredited U.S. academic medical institution (allopathic or osteopathic) who is a full-time faculty member of the institution.
- Hold an MD, DO, DDS, or other appropriate degree from an accredited U.S. academic medical institution and have been accepted by a sponsor institution.

Eligibility

Applicants must:

- Be recognized as independent investigators or will be assigned primary investigator status by their sponsoring institution, and have arranged for an appointment at an accredited U.S. academic medical institution (allopathic or osteopathic) who is a full-time faculty member of the institution.
- Hold an MD, DO, DDS, or other appropriate degree from an accredited U.S. academic medical institution and have been accepted by a sponsor institution.
- Be recognized as independent investigators or will be assigned primary investigator status by their sponsoring institution, and have arranged for an appointment at an accredited U.S. academic medical institution (allopathic or osteopathic) who is a full-time faculty member of the institution.
- Hold an MD, DO, DDS, or other appropriate degree from an accredited U.S. academic medical institution and have been accepted by a sponsor institution.

Eligibility

Applicants must:

- Be recognized as independent investigators or will be assigned primary investigator status by their sponsoring institution, and have arranged for an appointment at an accredited U.S. academic medical institution (allopathic or osteopathic) who is a full-time faculty member of the institution.
- Hold an MD, DO, DDS, or other appropriate degree from an accredited U.S. academic medical institution and have been accepted by a sponsor institution.
- Be recognized as independent investigators or will be assigned primary investigator status by their sponsoring institution, and have arranged for an appointment at an accredited U.S. academic medical institution (allopathic or osteopathic) who is a full-time faculty member of the institution.
- Hold an MD, DO, DDS, or other appropriate degree from an accredited U.S. academic medical institution and have been accepted by a sponsor institution.

Eligibility

Applicants must:

- Be recognized as independent investigators or will be assigned primary investigator status by their sponsoring institution, and have arranged for an appointment at an accredited U.S. academic medical institution (allopathic or osteopathic) who is a full-time faculty member of the institution.
- Hold an MD, DO, DDS, or other appropriate degree from an accredited U.S. academic medical institution and have been accepted by a sponsor institution.
- Be recognized as independent investigators or will be assigned primary investigator status by their sponsoring institution, and have arranged for an appointment at an accredited U.S. academic medical institution (allopathic or osteopathic) who is a full-time faculty member of the institution.
- Hold an MD, DO, DDS, or other appropriate degree from an accredited U.S. academic medical institution and have been accepted by a sponsor institution.

Applications must include:

- Letters of recommendation from at least 2 letters of recommendation (one or more faculty, one or more non-faculty
- Scientific writing samples (maximum 1000 words)
- A concise research proposal must be written by the applicant. The research proposal must outline the proposed research in an academic setting. Applications will be evaluated by a Grant Review Committee that is composed of independent academicians in the field of pain medicine. This grant will not fund research involving animal models of disease, not proposals involving any medications such as drug trials.

Letters of Recommendation

At least 2 letters of recommendation are required. Each letter of recommendation must include the following:

- A statement of the applicant’s potential for future outstanding contributions to the field, as evidenced by such factors as his or her research training, and publications.
- A statement of the applicant’s potential for future outstanding contributions to the field, as evidenced by such factors as his or her research training, and publications.
- A statement of the applicant’s potential for future outstanding contributions to the field, as evidenced by such factors as his or her research training, and publications.
- A statement of the applicant’s potential for future outstanding contributions to the field, as evidenced by such factors as his or her research training, and publications.

Research Proposal

A concise research proposal must be written by the applicant. The research proposal must outline the proposed research in an academic setting. Applications will be evaluated by a Grant Review Committee that is composed of independent academicians in the field of pain medicine. This grant will not fund research involving animal models of disease, not proposals involving any medications such as drug trials.

A concise research proposal must be written by the applicant. The research proposal must outline the proposed research in an academic setting. Applications will be evaluated by a Grant Review Committee that is composed of independent academicians in the field of pain medicine. This grant will not fund research involving animal models of disease, not proposals involving any medications such as drug trials.
Fellows are expected to devote at least 90% of their professional time to the proposed Pfizer Fellowship project. This award will not fund research that has application to the proposed Pfizer Foundation program. The primary purpose of the Pfizer Postdoctoral Fellowship Grants in Pain Medicine is to provide financial support to pain physicians who wish to pursue clinical and basic biomedical research in an academic setting. Applications will be evaluated by a Grant Review Committee, which is composed of independent academicians in the field of pain medicine. This grant will not fund research involving animal models of disease, not involve any medications such as drug trials.

Grants are US$65,000 per year for 2 years. Funding is primarily intended for salary support. Only 1 application will be accepted per medical school to pain medicine. Up to 3 individuals will be selected each year to receive a Pfizer Postdoctoral Fellowship Grant in Pain Medicine.

Who May Apply

The Pfizer Postdoctoral Fellowships provide financial support for the training of physician-scientists in preparation for full-time faculty status. Individuals already having a full-time, tenured or tenure-track appointment, or anticipating such an appointment or its equivalent during the third year of the fellowship, are not eligible to apply. Applicants must demonstrate a strong commitment in academic pain medicine and be sponsored at a U.S. academic medical institution by a full-time faculty member. The candidate’s potential for future outstanding contributions to the field, as evidenced by such factors as his or her research training, and publications, will be closely evaluated. Fellows are expected to devote at least 80% of their professional time to research. Applicants who are being sponsored/managed by a member of this year’s Academic Advisory Board and/or who are affiliated with a board member’s department or program are not eligible to apply during the board member’s tenure on the advisory board.

MAYBE

This guide is to be used by the applicant who has completed an MD, DO, DDS, or other doctoral clinical degree.

1. Academic

a. hold an MD, DO, DDS, or other doctoral clinical degree.
b. applicants are required to disclose all financial relationships, including provision of an off-site mentor who has expertise in the proposed area of research.
c. a grant recipient may not concurrently receive an NIH career development award, or any other award that offers significant career development, or have principal investigator status on a research grant, fellowship, or any other benefit from a research grant, career development or training award, or be the sole beneficiary of, or control an award.
d. applicants are required to disclose all financial relationships, including provision of an off-site mentor who has expertise in the proposed area of research.

2. Sponsorship

a. an award cannot be made if the applicant does not have a sponsor. An applicant must:
   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.

   b. an award cannot be made if the applicant does not have a sponsor. An applicant must:

   an applicant must provide a detailed curriculum vitae (C.V.) and financial history and be familiar with the expected terms of the fellowship.
Announcement

Application Deadline:

The Pfizer Postdoctoral Fellowships provide financial support for the training of physician-scientists involved in research that has application to the prevention, treatment, and/or cure of human pain and have been accepted by a sponsor at the institution who is a full-time faculty member of an allopathic or osteopathic medical school, college of pharmacy, or college of dentistry. Eligible applicants must have completed or be in the final year of residency training and demonstrated a strong career interest in pain management. Fellowship training will prepare the applicant for career development and the conduct of clinical and basic biomedical research.

Eligibility

An applicant must:

1. be a citizen or nonimmigrant visa category eligible to work in the United States. Applicants in temporary nonimmigrant visa categories are not eligible to apply. Applicants must demonstrate a strong career interest in academic research and have arranged for an appointment at a U.S. academic institution.

2. be a full-time, tenure-track faculty member of an allopathic or osteopathic medical school, college of pharmacy, or college of dentistry.

3. Research

• an applicant must give evidence of the primary sponsor's interest and commitment to the proposed project. The primary sponsor at the institution who is regularly involved in the planning, management, conduct, and interpretation of the research.

• evidence of the primary sponsor's interest, commitment, and support for the proposed fellowship project.

4. Institutional Endorsement

An applicant must obtain a letter of institutional endorsement from the department chair or division director of the clinical or research department at the applicant's institution which includes:

• a description of the available training environment and available resources.

• evidence of the primary sponsor's interest, commitment, and support for the proposed fellowship project.

• evidence of the applicant's interest, commitment, and support for the proposed fellowship project.

• a description of the available funding opportunities.

5. Other Funding

Applicants are expected to devote a minimum of 90% of their professional time to research and have arranged for an appointment at a U.S. academic institution. Applications from institutions who are in the process of applying for other federal, nonfederal, private, association, foundation, or other equivalent award which, if awarded, would fund the applicant's term. Consideration will be given to applicants who have applied for other support. In general, consideration will be given to applicants who have applied for the Howard Hughes grant. If such an applicant is selected, a research grant, fellowship, development award, or any other equivalent award which, if awarded, would be related to the proposed Pfizer awards is not available for the applicant's term.

Application Procedure

A. Applications are accepted until the deadline date.

B. A complete applicaiton must be submitted. Letters, supervisors (other than the projected primary sponsor), curriculum vitae, and research proposal must be submitted. Letters, supervisors (other than the projected primary sponsor), curriculum vitae, and research proposal must be submitted.

C. In addition to the primary sponsor, at least 2 letters of recommendation from academic and professional contacts must be submitted. Letters should be written by academic and professional contacts who have had first-hand knowledge of the applicant's scientific and professional achievements.

D. Applications and institutional endorsement letters are to be submitted on the Pfizer Fellowship Grant Application Form.

E. The application must be in the applicant's personal name and any other name will be neither reviewed nor considered for Pfizer fellowships.

F. The proposed research and training plan for the proposed fellowship are to be submitted on the Pfizer Fellowship Grant Application Form. Applications are accepted for all fields of biomedical research.

Selection Criteria

Applications are reviewed by a Grant Selection Committee comprised of Pfizer research scientists, academic and professional contacts, and/or institutional sponsors. Final selection of fellows is made by the Pfizer Postdoctoral Fellowship Committee and is based on the following criteria:

1. eligibility criteria

2. a statement explaining how the research proposal and its relevance to the field of pain management and the proposed Pfizer award, Pfizer must be the sole beneficiary of, the applicant's term.

3. a detailed research training plan outlining the proposed research during the first year of the fellowship.

4. a letter describing the available training environment and available resources.

5. a letter from the applicant's department chair or division director which includes:

• a description of the available training environment and available resources.

• evidence of the primary sponsor's interest, commitment, and support for the proposed fellowship project.

• evidence of the applicant's interest, commitment, and support for the proposed fellowship project.

• a description of the available funding opportunities.

6. a letter from the applicant's department chair or division director which includes:

• a description of the available training environment and available resources.

• evidence of the primary sponsor's interest, commitment, and support for the proposed fellowship project.

• evidence of the applicant's interest, commitment, and support for the proposed fellowship project.

• a description of the available funding opportunities.

7. a letter from the applicant's institutional endorsement letter which includes:

• a description of the available training environment and available resources.

• evidence of the primary sponsor's interest, commitment, and support for the proposed fellowship project.

• evidence of the applicant's interest, commitment, and support for the proposed fellowship project.

• a description of the available funding opportunities.

8. a copy of the single most relevant scientific paper on the topic of pain management. This paper must be in the applicant's personal name and have been published in a refereed journal.

Notification of Recommendation

Letters of Recommendation

3. a detailed summary of recent research findings which are not part of the proposed Pfizer award.

4. a letter describing how the research proposal and its relevance to the field of pain management and the proposed Pfizer award, Pfizer must be the sole beneficiary of, the applicant's term.

5. The proposed research and training plan for the proposed fellowship are to be submitted on the Pfizer Fellowship Grant Application Form.

6. Applications are accepted for all fields of biomedical research.

7. The selected applicants will be notified of the status of their applications.

8. The selected applicants will be notified of the status of their applications.

9. The selected applicants will be notified of the status of their applications.

10. The selected applicants will be notified of the status of their applications.

  Title: _____________________________________________

By signing this application, the fiscal officer assumes full responsibility for the proper administration of funds disbursed from Pfizer to the sponsoring university and for the maintenance of accurate and complete financial records documenting the use of those funds.

Each individual signing this "Acceptance of Pfizer Postdoctoral Fellowship Grant" agrees that he/she, as a representative of the sponsoring university, has read, and will comply fully with the procedures, policies, and requirements of the Pfizer Postdoctoral Fellowship award as described in the attached Pfizer Postdoctoral Fellowship Program in Pain Medicine brochure. Furthermore, each signing individual represents that to his/her knowledge there are no policies or prior obligations to any third parties that would prevent the sponsoring university or the Fellow from complying with the terms of the award as outlined in the brochure. Each signing individual also understands that this Pfizer Postdoctoral Fellowship award is designated for the support of the research described in the fellow’s application submitted to Pfizer.
1. Research Involving Human Subjects

Safeguarding the rights and welfare of human subjects involved in activities supported by grants from Pfizer Inc is the responsibility of the institution that receives the funds awarded. In order to provide for the adequate discharge of this institutional responsibility, no grant for an activity involving human subjects shall be made unless the application for such support has been reviewed and approved by an appropriate institutional committee.

Check 1 of the Following Statements as Applicable:

☐ A. This application does not propose any activities that would involve human beings as research subjects.

☐ B. This is to CERTIFY that this application, which does propose research activities involving human subjects, has been reviewed and approved by our institutional committee on the date of _____________________________ in accordance with current DHHS policy. Certification is invalid if review date precedes date award is made by more than 1 year. If pending please indicate.

2. Research Involving Biohazards*

The safety precautions and general standards necessary for research involving any biohazard supported by grants from Pfizer Inc is the responsibility of the institution that receives the funds awarded. In order to provide for the adequate discharge of this institutional responsibility, no grant for an activity involving biohazards shall be made unless the application for such support has been reviewed and approved by an appropriate institutional committee.

*Radioactive compounds, chemical carcinogens, infectious agents, or recombinant DNA.

Check 1 of the Following Statements as Applicable:

☐ A. This application does not propose any activities that would involve biohazards.

☐ B. This is to CERTIFY that this application, which does propose research involving biohazards, has been reviewed and approved by our institutional committee on the date of _____________________________ in accordance with current accepted general standards. Certification is invalid if review date precedes date award is made by more than 1 year. If pending please indicate.

3. Research Involving Laboratory Animals

The proper care and humane treatment of laboratory animals involved in activities supported by grants from Pfizer Inc is the responsibility of the institution that receives the funds awarded. In order to provide for the adequate discharge of this institutional responsibility, no grant for an activity involving laboratory animals shall be made unless the application for such support has been reviewed and approved by an appropriate institutional committee.

LIST SPECIES OF LABORATORY ANIMALS TO BE USED:

Check 1 of the Following Statements as Applicable:

☐ A. This application does not propose any activities that would involve laboratory animals.

☐ B. This is to CERTIFY that this application, which does propose research activities involving laboratory animals, has been reviewed and approved by our institutional committee in accordance with current NIH policy.

Print or Type name of Dean of Medical School
(or university official authorized to sign grant proposals)

Dean’s (or Official’s) Signature confirming that no more than 1 application has been submitted in this competition.  

Date

By signing this application, the dean of the medical school and the university official authorized to sign grant proposals (if not the dean of the medical school) also certify that the sponsoring university has approved of the applicant’s proposed research involving, as applicable, human subjects, biohazards, and/or laboratory animals, and that the university will comply with the requirements for same, as outlined in this application. The above individuals also certify that the university will provide the appropriate facilities necessary for the proper conduct of the applicant’s research.
Detailed Budget for First 12-Month Period
Direct Costs Only

STATEMENT OF OTHER FUNDING

OTHER FUNDING

a. an award cannot be made if the applicant is the sole beneficiary of, or has principal investigator status on, a research grant, fellowship, career development award, training award, or other equivalent award that offers significant career advancement. Examples include, but are not limited to, the NIH R01, K08, K23, or K24 awards or a Howard Hughes grant. If such an award is received during the term of the Pfizer award, Pfizer must be notified without delay.

b. an award cannot be made if the applicant is the sole beneficiary of, or has principal investigator status on, a research grant, fellowship, career development award, training award, or other equivalent award which, together with the Pfizer award, totals more than $130,000 annually.

c. a grant recipient may not concurrently benefit from a research grant, career development award, or any other named award funded by private sector companies in the pharmaceutical industry or their foundations during the period of Pfizer funding.

d. applicants are required to disclose all federal, nonfederal, private, association, or institutional grants and contract support that they are currently benefiting from, that they have recently applied for, and/or that they are in the process of applying for (including other Pfizer awards).

DISCLOSURE OF FUNDING (current and pending):

Applicants are required to disclose all federal, nonfederal, private, association, or institutional grants and contract support that they are currently benefiting from, that they have recently applied for, and/or that they are in the process of applying for (including other Pfizer awards).

INSTRUCTIONS

Include all federal, nonfederal, private, association, and institutional grant and contract support. Indicate whether or not applicant is principal investigator.
